TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP
Frameworks: React.js (Next.js), Express
Developer Tools: NPM, GitHub,

EXPERIENCE

IT Staff *July 2025 – Present*
Arkray Industry Inc. **Fulltime** *– Onsite*
- Built and maintained internal systems aligned with operational requirements.
- Translated user workflows into scalable, maintainable software solutions.
- Improved system stability and usability through continuous enhancements.

Software Developer Intern *February 2025 – May 2025*
Bridge Consultancy FZE **Internship** *– Remote*
- Designed and developed a full-stack invoicing system using Next.js and Supabase.
- Implemented complete CRUD functionality with a RESTful API architecture.
- Enhanced the invoice creation process by building a user-friendly interface and efficient data handling.

PROJECTS

Dental Clinic Management System | *TypeScript, React.js (Next.js), Supabase* *December 2024*
GitHub: https://github.com/mikkouson/Dental-Appointment-Management-System
- Developed a full-stack web application for appointments and admin management.
- Built a dedicated subdomain for admin management.
- Utilized Supabase for real-time data synchronization and management.

KanbanFlow | *React.js, Express, Git, MongoDB* *May 2024*
GitHub: https://github.com/mikkouson/Kanban
- Developed a full-stack web application using React.js and MongoDB for users to add and manage tasks seamlessly.
- Utilized Express to create a RESTful API with authentication and query parameter support.
- Implemented a real-time update feature for task status, enhancing user experience.

Apartment Management System | *PHP, Git, MySQL* *September 2023*
GitHub: https://github.com/mikkouson/Apartment-MGT
- Implemented CRUD functionality for managing apartments and tenant information.
- Developed a system for tenants to log maintenance requests and track progress.
- Created a user-friendly dashboard for real-time tracking of apartment availability and tenant information.

Event Management System | *PHP, Git, MySQL* *December 2023*
GitHub: https://github.com/mikkouson/Event--Registration--System
- Developed a full-stack web application for creating, updating, and managing events using PHP for the backend.
- Designed a scalable database schema for events and participants.
- Implemented event registration features to streamline workflows.

EDUCATION

Bachelor of Science in Information Technology – College 2021 – 2025
Batangas State University Lipa Campus

Information and Communication Technology – Senior High School 2019 – 2021
STI Lipa Campus
